

Background

Now, we are talking about a digitally-driven automobile future with cars already equipped with more advanced features such as cloud computing, big data, the Internet of Things (IoT) and AI, artificial intelligence.

From 1990 to 2016 the industry had already churned out millions of car units, raking in as much as 1.5 Trillion USD within the same period.

Now, while much of the growth can be explained by similar trends in world population, the role of industrialization and technological developments cannot also be overlooked. Changing at a frenetic pace, technology has led to innovations which now put big data analytics and AI as key shapers of the future of automobiles. One fallout of this inclination, according to Market Research, is that it gives original equipment manufacturers (OEMs) a qualitative advantage in an intensely competitive market. These technologies not only help enhance the end-user experience but also make a huge impact on the supply chain and change the very approach OEMs use for automobile manufacturing. (3)

Today, data has assumed a more powerful status, becoming a critical currency that underscores any drive for competitive advantage in today's economic landscape, the automobile industry inclusive.

Why Carnomic

In 2016 alone,
88 million cars

Car Industry's worth worldwide
>\$1.5 Trillion

It is of utmost importance for car producers to put their best foot forward due to the humongous demand for cars and car technologies in recent years by employing accurate data obtained from modern market research models.

This is where the Carnomic platform makes all the difference!

Carnomic platform optimally leveraging Blockchain technology functions as a public record of transactions between users and as well as an open ledger of shared private data.

The platform is designed in such a way that a user can easily either sell the Tokens for real Money or use the Token earned to earn more Tokens while using the App.

With Blockchain, Carnomic is offering a Social Network for car lovers through which it will be able to collect Data for the car Industry, while also offering platform users a unique opportunity to sell their Information in exchange for Carnomic Tokens.

The Carnomic App also has a Marketplace for selling and buying Cars.

The Key Problems Carnomic Seeks to Address

The Lack of an All-inclusive World-Wide Data-Platform

The Problem of No Payment for Data

The Problem of Data Security

The Team

Periklis Kalaitzis

CEO - Chief Executive Officer & Co-Founder

- Experience Bank Officer with over 14 years experience in the Finance industry
- Working for Companies such as Deutsche Bank and UBS
- Blockchain enthusiast

Andre Bischoff

CFO - Chief Financial Officer & Co-Founder

- Expert in Foreign trade and customs law
- Working for the government
- Blockchain enthusiast

Dennis Müller

CIO - Chief Information Officer & Business development

- Expert in Online Brokerage
- FX Trading
- work for different well known Start Ups

Thi Ngoc Anh Nguyen

CMO - Chief Marketing Officer

- Bachelor Degree in International Business Management
- Expert in Marketing and Digital Marketing

Trieu Le

Web Developer - Javascript and Nodejs

Ivan Ignatyev

.NET/C++/iOS/Android/Xamarin/PHP/ Mobile/Web/Desktop App

Khorede

Ph.D - computer science software engineering, developing & programming webs

Yaxin Luo

Professional Chinese - English Translator | IT, Marketing, Business

Ikulayo Charles

Graphics Designer

Distribution of Token

Ico details

Ico ticket::
cnm

Total supply
100,000,000 cnm

Soft cap
4,000 eth

Hardcap
30,000 cnm

Tokens for public
72,000,000 cnm

Ico token price
0.10 usd

Market cap
72,000,000

For 1 eth at ico pre-sale
3,000 cnm

For 1 eth at ico token sale week 1
2,760 cnm

For 1 eth at ico token sale week 2
2,520 cnm

Bonus Details

At pre-sale	Bonus ico sale - week 1	Bonus ico sale - week 2
25%	15%	5%

NB: all unsold tokens during the token sale will be burned.

Roadmap

Q3/2017

Development of the Idea and ensuring relevance

Q4/2017

Analyzing the Market in Terms of attractiveness and methods for realization

Q1/2018

Assuring the necessity of using Blockchain Technology

Q2/2018

Research about Contacts to Companies such as Volkswagen, Toyota, and BMW

Q3/2018

Start of the Preparation for the ICO Token Sale ICO Pre-Sale and ICO Sale

Q1/2019

Token listing on Top10 major Exchanges

Q1/2019

Development of the App and Blockchain

Q2+Q3/2019

Presentation on several Events and Fairs in Europe and Asia

Q3/2019

Launching the App and Blockchain Beta Version

Q4/2019

Official App and Blockchain release

Q4/2019

Marketing Campaign worldwide
